CLARIN Services and Tools

Accessing

CLARIN offers:

- Resources
  - Corpora
  - Lexical resources
  - Treebanks
  - etc
- Tools for searching for and in resources
  - Usage of metadata to find resources (VLO: Virtual Language Observatory)
  - Federated Content Search (FCS) for searching *in* resources
  - Automatic harvesting of metadata from CLARIN centers

Analyzing

CLARIN offers various web-based tools and services for:

- Automatic and manual annotation
- Alignment from speech signal and transcription
- Data analysis
- Visualization of data or analysis results

- Daniël de Kok will tell you a bit about tools and resources

Bundesministerium
für Bildung
und Forschung

CLARIN offers

- Help with the generation of a data management plan

- The possibility to make your research data available in a sustainable way

  - Storage in the "matching" CLARIN-D repository

  - Findable through metadata

  - Citable/referrable through PIDs

Other Services

- Collaboration with research communities
- Standards
- Helpdesk/Handbook/Use Cases
- Teaching/Teaching materials
- Legal Help Desk
